

CHOOSE LAW VALVE OF TEXAS FOR VR REPAIR

Law Valve is a National Board-Certified VR Repair and TO Facility. Our VR certification means we are approved to certify the valves we repair have been rebuilt to the OEM specifications and the standards set forth by the National Board of Boiler and Pressure Vessel Inspectors. Our TO certification allows us to test and recertify your valve between rebuild intervals following National Board standards.

We have the capabilities to rebuild, test and certify ASME Section VIII air/gas and liquid conventional and pilot operated relief valves with pressures ranging up to 4,350 psi and inlet flange sizes up to 10" NPS.

Law Valve of Texas

24/7 SERVICE

INVESTED IN QUALITY

Our relief valve test equipment uses digital pressure sensors to automatically capture the set pressure and reseal pressure of your device and is equipped with a laser-controlled bubble counter to ensure seat tightness. Every repair is subject to a stringent quality control inspection prior to shipping where every aspect of the repair is reviewed from the critical dimensions all the way to the information on the pack slip.

ANCHORED BY ENGINEERING

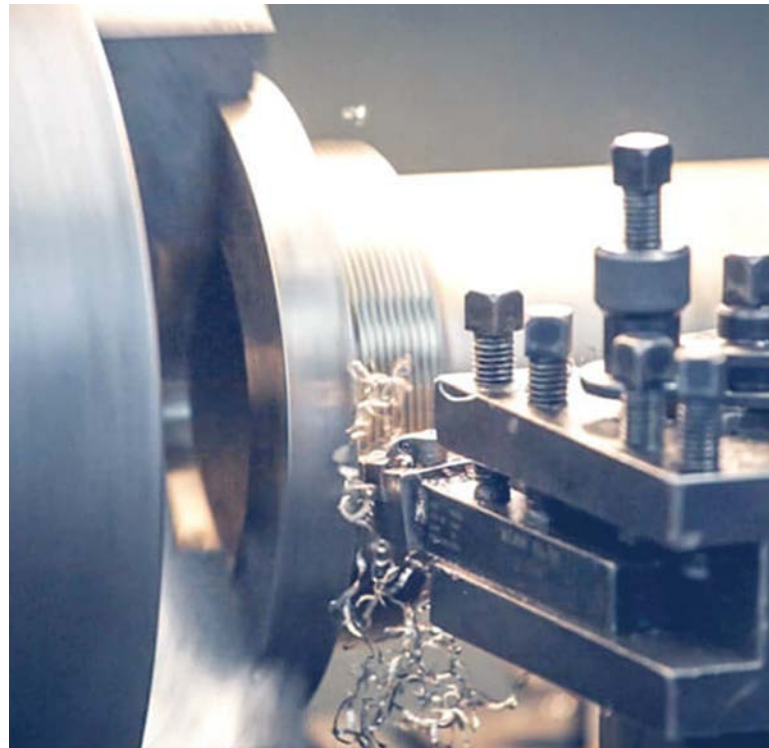

Law Valve of Texas is owned by ERL which provides us with support from our team of engineers. Whether they are developing innovative testing equipment or designing fixtures to improve efficiency in our operations, our engineers help set us apart. We are fully equipped with the latest in machine technology including CNC turning machines, Romer Arm CMM measuring device, and Ventil VC25-SRV-FLII test machine. Law Valve of Texas is also home to a revolutionary pump test stand: the first of its kind in the industry!

FLEXIBILITY

We have expanded our shop hours to 7:00 a.m. to 11:30 pm, plus we have a team of technicians available **24/7/365** to service our customers during those unexpected moments.

LEAD TIME

Our standard lead-time for valve repair is 2 weeks, but we offer same-day and next-day service as well. We can adjust our production schedule to fit your needs!

ON-TIME DELIVERIES

At Law Valve, we understand that downtime is costly which is why we pride ourselves in on-time deliveries. We track our on-time shipment metrics to motivate our team to exceed your expectations, and we boast an on-time delivery rate of over 92%!

BEST PRICE

We pride ourselves on an efficient operation. Our focus on efficiency leads to cost-savings for you!

FOR 24-HOUR SERVICE, CALL 713-824-7074
